ASSEMBLY BILL

No. 2823

Introduced by Assembly Member Ruskin

February 24, 2006

An act to amend Section 42421 of the Health and Safety Code, relating to air pollution.

LEGISLATIVE COUNSEL'S DIGEST

AB 2823, as amended, Ruskin. Air pollution: district compliance programs.

(1) Existing law imposes various limitations on emissions of air contaminants for the control of air pollution from vehicular and nonvehicular sources. Existing law designates the State Air Resources Board as the state agency with the primary responsibility for the control of vehicular air pollution, and air pollution control districts and air quality management districts with the primary responsibility for the control of air pollution from all sources other than vehicular sources. Existing law permits a district to establish by regulation a permit system, as provided. Existing law also requires each district with a population of one million or more to establish a compliance program consisting of specified elements, including procedures to ensure the consistent issuance of notices of compliance and notices of violations.

This bill would extend ~~this~~ *the* compliance program *requirement* to any district that has a population of 500,000 or more, and would require these districts, for any notice of violation of specified nuisance laws ~~and~~ *or* regulations, to post a copy of the notice of violation on the district's Internet Web site, to ~~notify~~ *provide a copy of the notice of violation to the state board, the city and county where the violation occurred, and* other appropriate governmental entities ~~and local agencies of the violation,~~ *to notify the superintendent of an affected school district,* to place a notice of the violation in a newspaper *for one time,* and to post a laminated *copy of the* notice of the violation on each side of the violating facility, as specified, no more than 2 days after ensuring that the information on the notice is accurate, thereby imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
